

New Maps Are In-Order Yours Today

During the winter of 2005-6 Deltic Timber Corporation had new aerial photography taken of all of our timberlands. Virtually all of these photos are in “true color” as opposed to color infrared. True color basically means what it says...the photography is as you would see it with your eye from an aerial view. You can see an example of this type of photo on the cover of this issue.

Infrared photos basically show the pine areas as a purple/red color. If your lease occurs in Clark, Nevada, Ouachita, and Columbia counties in Arkansas or Claiborne, Webster, and Bienville parishes in Louisiana, you will receive a current color infrared map if you place an order. All other counties and parishes were taken in true color.

Regardless of the type of photo taken of your leased area, clubs may now purchase these state of the art photographs for their hunting lease. We also have large topographic maps available for sale. All maps are sized 17” x 22” and printed on heavy bright white paper.

If your club wishes to purchase one of these, simply send us the information listed below. The cost for each map is \$45.00. Do not send your payment with your request...we will bill you when you receive your map.

Email order to: hunting_lease@deltic.com

Send prder via US Mail to: Deltic Timber Corporation
